

Code Lab 8

Code Lab 8 – Improve Number Formatting

In this code lab, you will need to improve the formatting of the numbers, in particular the monetary format that's appropriate for the US locale.

```

C:\Users\Saddleback\PycharmProje
BLACKJACK!
Blackjack payout is 3:2
Enter 'x' for bet to exit

Player's money $1,000.00
Bet amount: 50
DEALER'S SHOW CARD:
Ace of Clubs

YOUR CARDS:
8 of Hearts
7 of Hearts

Hit or Stand? (h/s): s

DEALER'S CARDS:
Ace of Clubs
10 of Hearts

YOUR POINTS:      15
DEALER'S POINTS:  21

Sorry, you lose.
Player's money $950.00
Play again? (y/n): n
Come again soon!
Bye!
```

Criteria of Acceptance

- Use the locale module to display the amount of money using formatting that's appropriate for US.
- Make sure the program doesn't yield incorrect money amounts due to floating-point errors.

For Submitted Validation

- All displayed dollar amounts are formatted for US currency.
- UI should match image above.
- All calculations should be correct.
