# Code Lab 9

## Code Lab 9 – Date and Time

In this code lab, you will be displaying the current time at the start and end of each session as well as the elapsed time of the session.

## Criteria of Acceptance

- When the program starts, display the start time at the top using the 12-hour format and include hours, minutes, and seconds.
- When the program ends, display the end time using the 12-hour format as well as the elapsed time for the session.

### For Submitted Validation

- You will need to submit a document (Word or PDF) with an image that shows:
  - Your application with a:
    - Starting in the header
    - Ending and elapsed time in the footer.
      - Elapsed time to meet expected formatting specifications
  - UI should match image above.
  - All calculations should be correct.
- All python source code files for the application.
